

VACANCY ANNOUNCEMENT

(Date of announcement: 22.04.2010)

Hydro Lab Pvt. Ltd. has been established to achieve the national development goals by providing an effective base of research and development, training and consulting service in the field of Water Resources Development in Nepal. Apart from other services, Hydro Lab provides ample model testing facilities for the development of hydro projects from the conceptual stage to the final design and operation.

The organisation invites application from Nepalese citizens for the post of **ASSISTANT RESEARCH ENGINEER (or RESEARCH ENGINEER**, depending on experience and qualifications).

Required Qualifications:

- Should have minimum of Bachelor Degree or preferably Master's Degree in Civil (Hydropower or Water Resource) Engineering
- Should have above 3 years of experience in the field of hydropower or water resources engineering

Salary and benefit will be as per the Company rules. Application should be submitted within 30 April 2010. Short-listed candidates will be contacted for interview. Hydro Lab reserves the right to accept/reject any or all applications. Written application should be accompanied by a recent photograph, a complete curriculum vitae, copies of relevant certificates and references and sent (by post or email) to:
